

# Too Much Knife!

The use of the surgeon's knife is becoming so general, resulting fatally in such a large number of cases, as to occasion general alarm. On the 10th of March, William Walpole, of Washburn, South Dakota, writes: "About three years ago, there came under my left eye a little blotch about the size of a small pea. It grew rapidly and shooting pains ran in every direction. I became alarmed and consulted a good doctor, who pronounced it cancer, and said that it must be cut out. This I would not consent to, having little faith in the indiscriminate use of the knife. Reading of the many cures made by S. S. S., I determined to give it a trial, and after I had taken it a few days, the cancer became irritated and began to discharge. This after while leaving a small scab, which finally dropped off, and only a healthy little scar remained to mark the place where the destroyer had held full sway."

## The Rouss Celebration.

To Be one of the Notable Events of the New Year.

Extensive preparations are already being made by the committee of the Union Steam Fire Company No. 2, recently appointed to make arrangements for fully celebrating the 64th birthday of their patron, Mr. Charles Broadway Rouss, on February 11, 1898. This will be the fourth celebration in honor of this distinguished man's birthday, and to a New Item reporter one of the committee said that the coming celebration would eclipse all previous efforts. Last year hundreds of Mr. Rouss' admirers were turned away on account of the inadequacy of the Court-House hall to hold them. In addition to the celebrations of the past, it has always been the desire of the committee to add a banquet to the programme, but heretofore no suitable nor sufficiently commodious place has been available. Now the company have their large hall at their disposal, and this year they will hold one of the largest banquets ever seen here. The committee will urge Mr. Rouss to attend, accompanied by several friends, including Mr. Erastus Wiman, and our people will anxiously await their decision.
